

Request for Proposals

Project: TEMPO 2018

Temporary public art exhibition and festival

Budget: up to \$10,000

Deadline: Thursday, March 15, 2018, 5:00 pm

Project Summary

The City of Austin's Art in Public Places (AIPP) program of the Cultural Arts Division, Economic Development Department, seeks proposals from professional visual artists or artist teams to design, fabricate, install and de-install short-term or time-based exterior artworks on City-owned sites within Parks and Recreation Department land and facilities, Austin Animal Center, and Austin Public Library Department land.

For the second year, the TEMPO 2018 program will culminate in a temporary public art festival, which will be a registered group exhibition during East Austin Studio Tour in November. The TEMPO festival is planned to be located in Edward Rendon Sr. Park, located along Ladybird Lake just east of I-35.

The intent for the temporary public art program is to promote tourism, cultivate curiosity, spark imagination, engage the community in a meaningful dialogue about public art, foster work by local artists and cultivate exploration of the City of Austin. Artists are encouraged to create artworks that reflect the district in which they select to exhibit and design artworks that can be easily installed and de-installed.

The City of Austin requests proposals from professional artists and designers who live and work in Williamson, Travis, Bastrop, Caldwell, Hays, Burnet, and Blanco counties are eligible to apply.

Budget for the proposed artworks is a maximum of \$10,000.

TEMPO Public Art Intent & Goals

The goal of the Art in Public Places Program is to commission works of art and art projects of redeeming quality that advance the public's understanding of visual art, enhance the aesthetic quality of public places and increase visitors to the ten City Council Districts of Austin through the exhibition of temporary public art.

Temporary public art plays an important role in attracting new and emerging artists to participate in the city's public art program, enrich the civic dialogue, engage public spaces in unique ways and cultivate tourism around the arts in Austin. The TEMPO program allows artists or artist teams to explore a range of themes suitable for the outdoor environment and provide the opportunity to create innovative, thought-provoking artworks that impact the way people experience their environment.

Goals of the TEMPO program:

- » Expose citizens to contemporary artworks by local artists;
- » Foster engagement between artist, artwork and the community;

- » Link local artists with resources and city assistance to develop skills and experience;
- » Facilitate public discussion, civic dialogue, and collaborative partnering for programming;
- » Promote new interest and increased participation in, and focus on, public art;
- » Promote tourism and the convention and hotel industry through arts activity.

Budget

The funds for this project are derived from the Hotel Occupancy Tax. A maximum amount of \$10,000 is available for each public art project. Ten commissions are expected to be awarded. No additional funds may be applied. Budget will include re-installation for a nine-day festival in November during the East Austin Studio Tour.

The selected artists or artist teams will be responsible for development of a final budget to encompass all costs, including design, fabrication, installation and de-installation, engineering, permitting, insurance, foundations or attachment methods and any landscaping around the piece as part of installation or de-installation. A sample budget sheet can be found online at: <http://austintexas.gov/department/aipp-resources>.

Insurance

Insurance will be required of all commissioned artists for the entire length of the contract. More detailed information on City of Austin insurance requirements can be found online at: <http://austintexas.gov/department/aipp-resources>.

Workers' Compensation insurance may be waived if the artist is producing the work without any paid subcontractors. Unpaid volunteers must sign a waiver of liability release form. If any subcontractors are hired by a commissioned artist, workers' compensation insurance will be required of the subcontractors.

- » For planning purposes, approximate cost for both the General Liability and Auto Liability insurances required has typically been \$400-\$600 for 3-D installed work and the approximate cost for time-based work/performance has typically been \$400-\$500. Actual costs may vary.

Artwork Opportunity

One commission is expected to be awarded in each of ten City Council Districts. Artists may select from a pre-approved list of City-owned sites listed at the end of this document.

- » Artists will propose their artwork site, with the understanding that artwork may be relocated to a different site within a district, or to a different district altogether.
- » All artworks will be re-sited in Edward Rendon Sr. Park for the TEMPO Festival. The festival will be a registered group exhibition during East Austin Studio Tours. Artists must budget for the second installation costs.

Artists' proposals should take various factors into consideration including weather, durability of materials, appropriateness to the public realm, safety, neighborhood and stakeholder input, etc.

- » Each proposal will be reviewed by the user department and any community stakeholder group for concept, placement, duration, safety, durability, and materials prior to the Selection Panel recommendations.

- » The artwork must not impede traffic, pedestrian right-of-way, safety, line of sight, normal business operations, critical root zone of trees, or any other potentially hazardous conditions.
- » The artwork proposals are intended for exterior environments only, must require little to no maintenance, be made of durable materials and be safe for a public setting.
- » No poured concrete may be used for any installations. AIPP recommends temporary methods of attachment such as Diamond Piers TM, Earth Anchors TM, rebar, or threaded rods with washers and nuts.

The commissioned artist or artist teams are responsible for installation, de-installation and site restoration. The artist or artist team is responsible for any repair of the artwork due to vandalism or other causes during the contracted exhibition period. If the artist or artist team does not repair the artwork in a timely manner, the City reserves the right to remove the artwork at the artist or artist team's expense.
