

Guide to Artists

What we're looking for?

The art should be appropriate for a public setting and suitable for all ages. We recommend that you view the 2017, 2018 & 2019 acquisitions to get a flavor for what work is suitable and what appeals to the panel.

Based on difficulties artists have had in the past, here are some suggestions:

1. Upload each piece of art as its own “project” with the purchase price as the “budget”
2. In the description of the artwork, include the Title, Dimensions, and Purchase Price
3. Upload documents as PDFs
4. Use the PublicArtist guide for any additional help

How to put your best foot forward with image selection.

1. To assist with our judging process, we break up your portfolio into individual images and each image is assessed independently. As such we strongly recommend, where possible, that you **provide all images for the artwork/sculpture in one image.**
2. Please ensure that you **caption each image with the correct price, dimensions, and title of the work.**
3. The **quality of your image is everything.** A poor quality image will limit your chances of a successful application.

Good Luck!
