CALL TO ARTISTS

The Art-in-Architecture Program of the Capital Development Board is pleased to announce a Request for Qualifications (RFQ) to Illinois professional artists to create permanent original public art for Illini Hall on the University of Illinois at Urbana-Champaign campus in Champaign, Illinois.

Final Deadline: Friday, April 23, 2021
4:30 P.M.

NOTE THAT EMAIL SUBMITTALS ARE NOW REQUIRED

ELIGIBILITY

These public art commissions and potential purchases are open to all professional artists, artisans, or artist-led teams *that live and work in the state of Illinois*.

- An artist/artisan is defined as a skilled practitioner that generates designs and concepts for creative works that reflect form, beauty, and aesthetic perception. All artists on a team must be from Illinois.
- Subcontractors may be used and are defined as those providing technical implementation such as construction, fabrication, and/or assembly for portions or all of a finished product under direct supervision and control of an artist.
- Faculty and staff of the University of Illinois at Urbana-Champaign are not eligible to apply for this commission.

PROJECT SUMMARY

The new building will be constructed on the site of Illini Hall at the corner of South Wright and East John Streets. The building currently at the site is scheduled to be razed.

It will be replaced with a larger, world-class facility for learning and discovery, including a data science center that does not currently exist on campus. The new facility will be a six-story, 143,000-square-foot building to the west of Altgeld Hall.

The new Illini Hall will house activities affiliated with the [Illinois Innovation Network](#), the [C3.ai Digital Transformation Institute](#), and additional classroom and office space for the departments of [mathematics](#) and [statistics](#). Designs call for ten classrooms and a large auditorium. Designs also call for LEED Platinum certification, which is the highest ranking by the U.S. Green Building Council.

PROJECT SITE

The site selected for the project artwork is the atrium area, emphasizing the connections between learning and research across the departments. The area includes the wall and ceiling area of the entire four-story space. The artwork will activate the area with views of collaboration, gathering areas, offices, and classrooms on the floors above.

The artwork will have to be light weight as the substrate for mounting the artwork are steel-stud gypsum board walls.

The artwork will also have to meet all requirements of the Americans with Disabilities Act and the Illinois Accessibility Code for protruding objects along an accessible route.

ARTISTIC OBJECTIVES

Fractal figures. A Bach fugue. The Fibonacci Sequence. Ancient pyramids. Numbers and their physical expressions have inherent beauty.

For this project the Committee would like artwork that explores this beauty in a compelling way that evokes the power of numbers, mathematics, statistics and their place in our world.

The piece must be durable, safe, and cost effective to maintain with very limited annual maintenance.

BUDGET DETAILS

The budget for the project is \$471,500.00.

This budget covers all expenses associated with, but not limited to the project design, labor, fabrication, project management, materials, tools, contracted services, operations and meetings, and travel required to complete the artwork plus installation, related permits, licenses, taxes and insurance, and transportation and delivery of the work to the site, as well as documentation of the completed project. Any expense that exceeds the contracted amount will be the artist's responsibility.

The artist is responsible for working with the Capital Development Board Art-in-Architecture Program, the using agency, and other relevant partners to oversee all aspects of the art installation.

SELECTION PROCESS

At least three artists/teams will be selected from the pool of eligible artists/teams and paid a fee of \$6,000.00 each to develop and present site specific proposals.

Letters will be sent to the selected artists/teams with details of the proposal process and contracts.

Do not send a proposal unless you have been contacted by the Art-in-Architecture Coordinator.

LEGAL AGREEMENT

The Capital Development Board Art-in-Architecture Program reserves the right to alter any aspect of the selection process or overall project in any way for its own convenience at any time. This Request for Qualifications does not constitute either an expressed or implied contract and these provisions are subject to change.

ABOUT THE ART-IN-ARCHITECTURE PROGRAM

The Illinois Art-in-Architecture Program promotes and preserves Illinois art and enriches communities by commissioning original artwork for public buildings constructed with State funds.

The enabling legislation for the Program requires that the Capital Development Board “shall set aside 1/2 of 1 percent of the amount authorized and appropriated for construction or reconstruction of each public building financed in whole or in part by State funds and generally accessible to and used by the public for purchase and placement of suitable works of art in such public buildings.” A committee including art professionals and the project architect, and oversees each project and selects the artwork.

Since its inception in 1977, the Art-in-Architecture Program has purchased or commissioned works of art by Illinois artists for public display throughout Illinois. For more information visit the [AIA Program website](#).
