Project History or Scope

Founded in 1879, Sam Houston State University is the third oldest public university in Texas. During its 141 years of service, the university has touched the lives of generations of Texans while helping shape the educational, social, economic, and cultural development of the state. Sam Houston State University is a doctoral-granting university located in the rapidly growing Interstate-45 corridor north of Houston. Currently, Sam Houston State has approximately 21,500 students enrolled in one of 90 undergraduate or 70 graduate and 10 doctoral programs offered by 8 colleges.

Sam Houston State University provides high quality education, scholarship, and service to qualified students for the benefit of regional, state, national, and international constituencies.

The new Gibbs Ranch Equestrian Facility and Agricultural Labs is under construction at the Sam Houston State University Gibbs Ranch property which fronts US Highway 75 North, approximately four miles northwest of the main campus in Huntsville, Texas. The project will house several programs in the University’s Department of Agricultural Sciences and be home to the University’s rodeo team. The facility program envisions a total site development of 2.6 million square feet that will ultimately encompass ten new structures, one relocated structure and significant exterior improvements through two phases of construction. The initial phase includes all primary site work to support both phases of vertical construction, a 15,147 SF Learning Center, the Plant Sciences facility with 15,000 SF Head House plus three 40,000 SF Greenhouses, a 14,688 SF Meat Sciences and Food Technology building and a 78,750 SF Multi-purpose Agricultural Center with related parking and support facilities. The second phase will include an equine science facility, a stall barn for the rodeo team, an equipment shed and final landscaping of the entire site.

Artwork Budget $175,000

Artwork budget is all-inclusive of artist fees, other consultants’ and subcontractors’ fees, insurance, engineering, materials, fabrication, transportation, installation (including any site modification) and lighting.

Public Art Project Goal(s)
Artwork will connect with the educational programming occurring inside the facility and/or the history of Gibbs Ranch.

Recommended Selection Process/Solicitation type
Open Call Request for Qualifications. Due to the construction timeline and budget of the project, this commission opportunity will be open to public artists living and working in the Southwestern states’ region (Alabama, Arkansas, Colorado, Florida, Georgia, Louisiana, Mississippi, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, and Wyoming). The Committee on Public Art (CoPA) will narrow the list of artists who applied, and the Director of Public Art will request paid proposals from the shortlist. The shortlisted artists will submit their proposals and be present for interviews with the CoPA. The CoPA will choose one selected artist and one alternate for review by the President and Chancellor.

Submission Requirements
